EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Timothy Conrad on 23 April 2007.

IN THE CLAIMS:

At line 1 of claim 21, "wherein member" has been changed to --wherein the member--.

At line 1 of claim 23, "connecting" has been deleted.

At line 1 of claim 24, --wherein-- has been inserted following "claim 1"; and at line 2, "implantation of the tissue contractor by accessing drawing on the member" has been changed to -- implantation of the tissue contractor by accessing the member and drawing on the member--.

2. The following is an examiner's statement of reasons for allowance: regarding claim 1, the prior art does not teach or suggest a tissue contractor placed within the tongue of a patient having a tissue-engaging end formed of a tissue growth inducing material. Furthermore, the prior art of record does not teach or fairly suggest anchoring

the end of a connecting member to the jaw bone after at least partially securing the tissue-engaging end to tissue. Regarding claim 10, while the prior art of record teaches a tissue contractor having a member for securing a tissue-engaging end to an anchor, the prior art of record fails to teach a tissue-engaging end formed of a tissue growth inducing material.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
